23 MS. BOELTER: My name is Arla Boelter,

24 A-R-L-A, B-O-E-L-T-E-R.

25 My main concern is the transportation of this

0213

1 junk and I don't, viewing what's happened here in the

2 last month, I don't think in 100 years there will be a

3 safe way to do this. And I think if terrorists want to

4 know coming, they know it. Our own government

5 officials can't keep their mouths shut. We know that

6 already. And I just don't think, you know, they know

7 what's happening before we do, the terrorists do. And

8 there's no way that we could protect this as it's being

9 shipped. And I don't think we'll be able to for a

10 long, long time, or maybe never. And that's my

11 concern. I just don't want to even see anything like

12 this.

13 MS. SWEENEY: Thank you, ma'am.
